LEARNING AGREEMENT

«DURING THE MOBILITY»
LEARNING AGREEMENT DURING THE MOBILITY

• We recommend that you change your LA within **30/40 days from the beginning of the Semester** (you should also check your Home University rules) so …

• … take your time in changing your LA and send it only once you are sure about the activities you wish to carry out

• If your Home University does not require a specific form, download the **Standard European form** from our website

  [https://www.unipd.it/en/exchange-students/erasmus-studies-incoming/during-your-stay-erasmus-studies](https://www.unipd.it/en/exchange-students/erasmus-studies-incoming/during-your-stay-erasmus-studies)

• send by email your LA (signed by you) to your Erasmus officer (Alessandra for school of science).

• Once signed by the Academic Coordinator, it will be sent back to your email address.

  • Pay close attention to any comments we might add to the LA!
**ONLINE LEARNING AGREEMENT (OLA)**

We are testing the exchange OLAs through EWP with a sample of partner Institutions during the **a.y. 2022/23**.

If your University is part of this sample, you can send the OLA through the online system of your University and we will sign it digitally.

If your University is not part of this sample, your LA will be approved in the "traditional way" (signature in the pdf) and you will receive it countersigned by Unipd via email and NOT in the online system of your University.

Useful Services for your daily-life
Tutoring Service

@ University of Padova

School of Sciences
Who is the tutor?

- The tutors are students and graduate students who help others enrolled in their college career, supporting the study and providing them with information.

**Tutors are involved in:**

- Providing a concrete support to students
- Study groups for first-year students

The effectiveness of aid is that the tutor is finishing his studies in the same course of study and is therefore the best person to date in the areas of teaching and the organization of the department itself.
Tutoring @ School of Science

Tutors are students of the master's degree, doctoral students and interns who are interested in maintaining a relationship with university life and offer to support the "new generation" that begin to delve into the intricacies of the academic world.

We:

- **Support** the activities of first-year students.
- Organize **study groups** in which students can compare, exchange expertise and learn together with friends and classmates.
- Act as **mediators between students and professors**.
- Keep updated tutoring **website/manage e-mails/help with coordination activities**.
Study Groups

We:

- Manage **free access study groups for all students** (with priority for freshmen).

- **Help students with practical problems** that can arise when studying, in particular by providing facilities in order to solve those problems.

- Provide **references** in order to find **teaching materials**.

- Are **in touch with teachers** as regards the arrangement of study groups.
Tutoring Information

For any advice relevant to the teaching and the course of study you can contact the tutor to the e-mail address:

E-Mail: tutorjunior.scienze@unipd.it

Please indicate in the subject of the email the name of your degree course: in this way the message will be immediately read by the tutor junior representative of the degree course specified.
